DETAILED ACTION

Allowable Subject Matter

1. Claims 1-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 1-6 is the inclusion of the method step of "comparing an index value, which is obtained by dividing a relative harmonic content of each order of current harmonics by total harmonic distortion of the current harmonics up to a predetermined order, with a criteria value, which is obtained by multiplying a harmonic function of each order found through calculation from the relative harmonic content of each order." It is this limitation found in the claims but not found in the prior art of record that makes these claims allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
